Yellow Ribbon Suicide Prevention is a cross community inclusive organization contributing to the aims and objectives of the Government's Protect Life Strategy NI. We are dedicated to the prevention of suicide attempts throughout the community by empowering individuals and communities through leadership, awareness, and education. This is carried out by collaborative partnerships with other mental health support groups including colleges universities and the wider business community.

Dear Stevie

On behalf of my management committee at Yellow Ribbon, we wish to thank you for your very generous donation of Covid pull down transparent screens for my clinical area.

These were supplied and expertly fitted by Bedwin Blinds and soft furnishings in Banbridge Co. Down and means that our Registered mental health charity can now resume business on Monday taking GP referrals throughout the year.

We are now in a position to comply with Government health protection guidelines and continue our voluntary work in and across the community saving lives from suicidal depression.

With renewed thanks Stevie for your generosity.

Warm regards
